New member of staff at ICB: Ms. Jingjing He - Coordinator Service Learning at the University of Bonn

Ms. Jingjing He has joined the team of the Innovation Campus Bonn (ICB) and fulfills the position as Coordinator Service Learning at the University of Bonn. Within the next years, she will build up and roll out a university-wide Service Learning concept. We wish her good luck in her new position!

Contact Ms. Jingjing He here.
Peace Research from the Bonn Alliance: BICC Director Publisher of the Peace Report 2020

On June 16, 2020, Conrad Schetter, BICC (Bonn International Center for Conversion), together with two other editors Nicole Deitelhoff and Christopher Daase, presented the Peace Report 2020 to the Federal Press Conference in Berlin.

Titled "In the Shadow of the Pandemic: Last Chance for Europe", the editors of the Peace Report 2020 call upon the Federal government to increase its commitment to cooperative solutions in the EU and across the globe, not only in the fight against the virus. They also urge that despite the pandemic, other important issues must not be overlooked. […]

Worth reading and watching

Webspecial at DIE: How does the digital transformation affect development cooperation and politics?

The tension between our digital potential and current politics and procedures poses opportunities and challenges to development policy and cooperation. The German Development Institute / Deutsches Institut für Entwicklungspolitik (DIE) addresses this tension through policy-relevant research. Here to the webspecial “Transformative force of Digitalization”.

What kind of transformative effects does digitalization have for Sustainable Development? Have a look at this video.

Climate- and migration research at DIE: Climate change and migration: How do they connect?

Migration and climate change are both highly complex phenomena. In the public debate we often hear about „climate related migration“ or even „climate refugees“, and very often this is done with a note of alert.

Learn in this video by the German Development Institute / Deutsches Institut für Entwicklungspolitik (DIE) what research says about this topic! Learn about terms, concepts and cases worldwide to understand why changing attitudes and improving the governance of human mobility can make a difference.

With the Klimalog project DIE promotes awareness for interlinkages between climate and development policy and furthers a goal-oriented dialogue between pertinent actors in politics, academia, civil society and the private sector.

UNU-EHS Publications
Climate change, ecosystem services and migration in the Marshall Islands: are they related?

“While we know that climate change is already affecting the Marshall Islands and that there are significant migration flows, we do not know to what extent people already migrate because of climate change. This paper addresses this gap and presents findings from interdisciplinary fieldwork in the Marshall Islands and destination areas in the USA.”

Trapped in the prison of the mind: Notions of climate-induced (im)mobility decision-making and wellbeing from an urban informal settlement in Bangladesh

“The concept of Trapped Populations has until date mainly referred to people ‘trapped’ in environmentally high-risk rural areas due to economic constraints. This article attempts to widen our understanding of the concept by investigating climate-induced socio-psychological immobility and its link to Internally Displaced People’s (IDPs) wellbeing in a slum of Dhaka.”
