Digitainable, the pilot project within the research area "Digitalization and Artificial Intelligence" under the umbrella of the Innovation Campus Bonn (ICB)*, is seeking

up to five Short-term graduate student assistants for event support (Local recruitment)

who are well-versed in the field of sustainability research to support a unique working format – the first *digitainable Thinkathon*!

Expected hours of work: 20 | distributed over: on-site event support on April 28, 2020 (whole day), preparation and follow-up processing in the respective week before and after. The event briefing will be on April 21, 2020.

Your responsibilities:	• support of the organization of the *digitainable Thinkathon* on-site (e.g. guidance of participants, room preparations, assistance to working group moderators) • note-taking and assistance in workshop reporting and documentation
Your qualifications:	• university studies of at least five years or equivalent (diploma, *Magister*, master's degree, state examination) in a field related to sustainability, sustainable development, or development policy, • good knowledge of various topics of sustainability, digitalization, and the connections between them, • excellent writing, reporting, and editing skills with an ability to produce clean and engaging content, • experience in organizing international events and scientific conferences is an advantage.
You are a person who:	• has strong organizational skills, • works independently and delivers reliable results, • has a robust critical thinking, sense of commitment, and attention to detail, • is available during the times mentioned above.
We offer:	• great experience in the organization on an innovative scientific activity, • a certificate of participation, • food during the event, • a small compensation for your work.

Applicants interested in the position are asked to apply with

- a motivation letter illustrating your qualifications, why you are interested in this position, and what you are looking to gain from this experience (max. 1 page)
- a current resume, containing relevant office and/or field experience

Please send your **complete application documents** by **9 March 2020** to Dr. Mahsa Motlagh mahsa.motlagh@uni-bonn.de with **the application code 20-02-ICB**. Before sending your application, please combine and convert all your documents into one PDF file; the file name should read "surname_name_20-02-ICB".

* The ICB is a new joint initiative by six Bonn-based research institutions (University of Bonn, with the Center for Development Research, the United Nations University, the German Development Institute, the Bonn International Center for Conversion, and the Hochschule Bonn-Rhein-Sieg/ University of Applied Sciences) which is hosted by the Agricultural Faculty of the University of Bonn. "Digitainable", a two-year project within the research area "Digitalization and Sustainability", will focus on a detailed analysis of the connection between digitalization and artificial intelligence and the UN Agenda 2030.
